Project 4 Part 2

Made By:
Daanish Goyal

1767-3302

daanishgoyal@ufl.edu

Websharper Implemented. (youtube Link at the end)

Bonus NOT DONE.

TO RUN:

- Open SERVER in JetBrains IDE and run

- Open Client in another JetBrains IDE and run

The command pattern is as follows:

```
option+","Ppst","username","pass","dest_username","tweetContent","query#","+a
t+","register"
```

Eg: Registering 2 users and tweeting from them

reg,,user1,7777,,,,,
reg,,user2,8888,,,,,

send,,user1,7777,,tweet1 @LetsTweet,,,
send,,user2,8888,,tweet2 @dosp,,,

subscribe,,user1,7777,user2,,,,

querying,,user1,7777,,,,,
